## TEST REPORT

**Product Description:** Bell & Howell Ultrasonic Pest Repeller**Buyer / Order No.:** Van Hauser**Manufacturer:** Intellitec International Inc.**Test period:** 2010-11-1 to 19

### TESTING CONDITION AND REQUIREMENT

**Purpose of test:** Model#50153 Pest Repeller Effective Coverage**Testing condition:** 1) Total 6 rooms available for testing.

- \* Area about: 2901 square feet;
  - \* All gap in window, door properly sealed with wooden board and taped securely;
  - \* Between each 2 rooms with a hole in the wall to allow pest moving freely;
  - \* Repeller place in Room3 where with 110V power source socket available
- 2) Temp.: 17°C to 24°C (65.6°F to 75.2°F);
- 3) With enough food and water in each testing room;

**Testing procedures:** 1) Pre-test (for 3 days with pest repeller was off):

- a. Put mice, spiders, roaches into Room 3 at same time;
- b. Observe the living condition of pests in these 3 days;

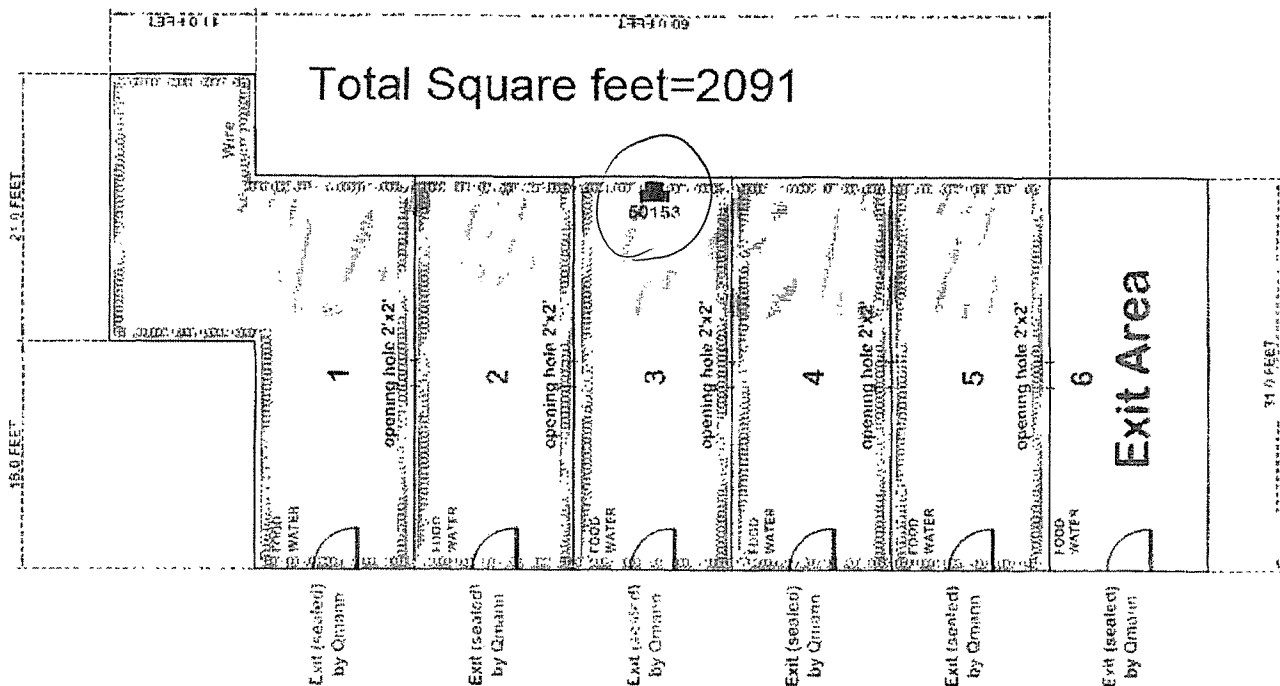

**2) On testing:**

Switch on pest repeller in Room 3, observe pest living condition on daily bases;

**3) Post test (for 3 days with pest repeller was off):**

After complete testing, then switched off the pest repeller for 3 days and observed the living condition of pests in the rooms.
